

Jan

Jan de Graaf has over 12 years of experience in renewable energy across East Africa. He began as East Africa Program Manager at BioLite in Uganda and Kenya, later served as VP Operations and COO at Inyenyeri in Rwanda, co-founded BioMassters, and was COO there for four years, helping advance pellet production and distribution.

Jan has also worked as a World Bank consultant in the solar sector and now serves as Senior Director of Programmes for SaniTap in Madagascar, which just distributed 120,000 improved cookstoves.

Jan holds a Bachelor's degree in Political Science and a Master's degree in Public Policy. It was during this master's program that Jan and Yvette met. Jan has a strong passion for family ministry and mentorship programs — for couples, men, fathers, boys and other groups.
